

Griddle Table + Grease Guard

GRILL STATION FLAGSHIP

A full outdoor kitchen, right on your cart

Before you start: Requires the HUB Mount (sold separately). Sized for a 17" Blackstone griddle (sold separately).

What's in the Box

- (1) Griddle Table + Grease Guard unit, fully assembled
- (2) Button Head Cap Bolt 3/8-16 × 3/4" stainless
- (2) Star Knob 3/8-16
- (2) Ball Lock Pin (stainless steel)
- (6) Flat Head Machine Screw M5-0.80 × 20 mm Phillips stainless (countersunk — hinges)
- (2) Pan Head Machine Screw M5-0.80 × 20 mm Phillips stainless (rounded — ball lock pins)
- (8) Hex Nut M5-0.8 stainless
- (8) Split Lock Washer M5 stainless
- Installation instructions

Tools Required

- 1 × 8 mm wrench (for the M5 hex nuts)
- 1 × #2 Phillips screwdriver (holds the machine screws)

Hardware is stainless steel. Do not over-tighten powder-coated surfaces.

Installation

- 1** Hinges — use the 6 FLAT HEAD machine screws (countersunk heads sit flush; the 2 pan head screws are for Step 5). Insert all 6 flat head screws through the two hinges attached to the base of the Griddle Table. The hinges let the table pivot up for use and fold down flat for travel.
- 2** Pass the machine screws up through the designated holes on the bottom of the HUB Front.
- 3** Working from the side of each hinge, thread a hex nut (with split lock washer) onto the middle machine screw — 3 per hinge.
- 4** Install the remaining nuts and lock washers and snug all 6 securely.
- 5** Ball lock pins — use the 2 PAN HEAD machine screws (rounded heads). Attach each ball lock pin lanyard on the INSIDE of the HUB Mount with one pan head screw, hex nut, and split lock washer (one per side) — this locks the table down flat through the travel holes while driving.
- 6** To use: unpin each side, raise the table, and secure it in the HUB Front with a button head cap bolt and star knob on the back side of the HUB.

Warranty Lifetime warranty on welded joints and stainless steel hardware. Three (3) year warranty on powder coat finish and all other components.

Thank you for choosing Summit.

Every Summit unit is fabricated from start to finish in the heartland of Illinois — proudly made in the USA.

Thanks for trusting us with your build.
